Place : Kannur,Kerala

Summary

Final-year B.Tech Computer Science and Engineering student at KTU University with a strong interest in frontend development, UI/UX design, and web development. Skilled in creating user-friendly interfaces using Figma and passionate about building intuitive, visually appealing, and responsive digital experiences.

Skills

UI/UX Design - UI Design , Wireframing , Prototyping , Figma

Web Development - React , HTML , CSS

Programming Language - Python , C

Personal Skills - Adaptability , Team Coordination , Task Management

Projects

Furniture Shopping App – UI/UX Design

- Designed a mobile interface for browsing and purchasing furniture.
- Created product listing, category filtering, and product detail screens in Figma.
- Focused on clean layout, usability, and visual hierarchy.
- FigmaDesign: https://www.figma.com/design/fNWwaOIDgdyhULSn0Jcvxk/Furniture?node-id=0-1&p=f&t=F3tlmuJ3jJJUmUE6-0

Perfume E-commerce App – UI/UX Design

- Designed an e-commerce mobile app for discovering and purchasing fragrances.
- Developed home, product detail, and checkout screens using Figma.
- Figma Design: https://www.figma.com/design/zIQE6pnA7CkoLPjf9KPJFX/Drop?node-id=0-1&p=f&t=N5InnkgK71vDzJi6-0

Recipe Finder – Cooking App UI/UX Design

- Designed a mobile app that helps users discover and identify cooking recipes with an easy-to-navigate interface.
- Developed key screens including onboarding, recipe listing, and detailed recipe view using Figma.
- Created a visually engaging UI with categorized menus, search functionality, and clear content hierarchy for better user experience.

Knot – AI-Powered Dress Designing App - UI/UX Design

- Designed a mobile app enabling users to create and customize dresses using AI-assisted tools.
- Developed key screens including login, design studio, and product browsing using Figma.
- Created intuitive UI for selecting styles, fabrics, colors, and patterns with a clean, modern user experience.
- Figma Design: https://www.figma.com/design/JAvVAamg9kqempC3NIQg06/KNOT?node-id=90-22&p=f&t=wcAzwG0JfyMIRaSv-0

Plant Emotion –UI/UX Design

- Designed a playful plant-themed interface that simulates plant emotions using a creative, humorous concept.
- Developed engaging screens with interactive elements and mood-based feedback (e.g., “thirsty,” “sad,” “angry”) using Figma.
- Crafted a visually appealing UI with soft color palettes, illustrations, and clear call-to-action elements to enhance user engagement.
- Figma Design: https://www.figma.com/design/DPHlLRksJrAX8mGNPQehcM/Plant-Emotion?node-id=16-151&t=uk29TSNsv7jA7qBo-0

Recipe Finder Website – Frontend Development

- Developed a recipe search website using React and external API integration.
- Implemented features to retrieve and display recipes based on user search queries.
- Built responsive user interface and dynamic data rendering.
- Live Project: https://recipe-finder-three-amber.vercel.app

Plant Emotion Website – Concept Project

- Developed a simple interactive website interface that displays plant emotions based on user button interactions.
- Designed the concept as a creative exploration of human–plant interaction.
- Built using React with a simple event-driven interface.
- Live Project: https://useless-project-green.vercel.app

Internship

Frontend Development

KGISL Microcollege| 5-Days Internship

- Gained basic exposure to frontend development concepts
- Worked with **HTML and CSS** for simple web pages

Education

Bachelor of Technology (B.Tech) - Computer Science

Jyothi Engineering College ,Thrissur | 2023 - present
CGPA – 8.02

Higher Secondary (Plus two)

Kerala Higher Secondary Board | 2021 - 2023
Percentage – 91%

High School (10 th)

Kerala SSLC Board | 2020-2021
Percentage – 90%
